

September 3, 2015

I am writing to secure copyright permission for a book chapter authored by one of our faculty members which was published by Editions Alexandre Lacassagne in 1989. This request is for single purpose use in the Institutional Repository maintained by the University of Wisconsin Law Library.

Listed below is the citation information:

Author: Alta Charo

Chapter: Reproductive Technologies and Bioethics in the US: Looking Back, Looking Ahead

Book: Procreation Artificielle: Ou En Sont le Droit? Une Contribution Multidisciplinaire et Internationale

Editors: C. Byk

Date: 1989

Please note that we will include complete book citation information. Our goal is simply to make faculty research available to a wider audience and assure its long-term preservation via our institution's repository

If you agree to grant us permission to post this chapter, please reply to my email within 30 days. If we do not hear from you we will assume copyright is not an issue. Thank you for your assistance.

Sincerely,

Kris Turner

Reference and Technology Services Librarian
